

TECHNICAL AUTORACING
2017 COLLECTION

SUPERTECH SUIT

AUTORACING / SIZE: 44-60 EUR

- With every detail on this auto racing suit designed to reduce weight and minimize driver fatigue, the Super Tech Suit features a fully floating arm construction and an extensive stretch panel on the back for excellent, anatomical performance fit.
- Light, close-fitting and featuring an innovative three-layer aramidic fiber construction this suit fully complies with the latest FIA homologation standards.
- Certified to FIA 8856-2000 homologation standard and SFI (SFI: 3.2A/5) standards
- Ultra-lightweight, multi-layer aramidic fiber construction incorporates highly breathable mid-layer and panel inserts for performance and effective regulation of body temperature.
- Outer shell constructed from aramidic fibers for exceptional heat and flame-resistant properties.
- Alpinestars innovative material technology gives ultra-lightweight comfort with exclusive elastic fabric for fit and flexibility.
- Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
- Extended, Formula 1 derived anatomical stretch panels in lower back and sides, crotch and knee zones providing greater flexibility and superior fit, both in and out the car.
- Form fitting suit with engineered torso shaping.
- Soft collar with knit fabric and Velcro® for secure, comfortable closure.
- Pre-shaped arm and leg patterning is ergonomically engineered for optimum fit in the driving position.
- Ribbed, stretchable wrist and foot cuffs (boot cut version features hemmed foot cuff finish).
- Alpinestars exclusive shoulder epaulette construction providing easy extraction system.
- Printed logos help maintain suit's material integrity and reduce weight.
- Premium YKK zippers with Alpinestars zipper pullers, plus double slider for versatile and customizable fit.
- Sold with washing bag for convenience and to help protect material fibers.

GP TECH SUIT

AUTORACING / SIZE: 44-60 EUR

- Featuring a revised performance fit construction Alpinestars' GP Tech Suit continues to set the industry standard, incorporating the latest technological advances from Alpinestars F1, WEC and NASCAR race programs.
- Ultra-lightweight and comfortable with innovative elbow and lower arm stretch panels, this auto racing suit offers unsurpassed performance, ergonomic fit and movement in the tight constraints of the cockpit.
- Complies with the FIA 8856-2000 homologation standard and SFI (SFI: 3.2A/5) standards
- Ultra-lightweight, three-layer aramid fiber construction provides the ultimate in performance and protection.
- Strategically placed, highly breathable fabric inserts enhance body temperature regulation and moisture-wicking performance.
- Alpinestars' fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
- Revised performance fit construction for improved comfort; ergonomic shaping allows for tight-fitting garment.
- New elbow and lower inside-arm stretch panels allow for enhanced performance fit and comfort in the cockpit.
- Alpinestars patented central back stretch panel greatly enhances freedom of movement and helps maintain the suit's fit while driving.
- Arm and leg patterning is ergonomically engineered for optimum fit in the driving position.
- Dual-layer armpit construction further enhances mobility and comfort in the cockpit.
- Internal flat seams reduce pressure points in the suit for a more comfortable driving experience.
- Soft knit-fabric collar ensures a comfortable closure at the top of the suit.
- Fabric coverage on the shoulders allows comfortable placement of the HANS device, while ensuring minimal material bunching occurring under the device when racing.
- Ribbed, stretchable wrist and foot cuffs (boot cut version features hemmed foot cuff finish).

GP PRO SUIT

AUTORACING / SIZE: 44-60 EUR

- Incorporating a new assembly construction for improved levels of breathability and comfort, the anatomically optimized, multi-layer GP Pro Suit features advanced safety materials which offer highly effective heat transfer protection.
- Coming in a range of new colors, this extremely lightweight FIA homologated suit, which has been developed in Formula 1, WEC and NASCAR, has strategically placed stretch inserts for greater freedom of movement and performance.
- Certified to FIA 8856-2000 homologation standard and SFI (SFI: 3.2A/5) standards
- Innovative, lightweight multi-layer construction offers improved comfort levels and anatomical fit while giving garment greater excellent breathability:
- Aramid fiber outer layer provides excellent resistance to heat, plus aramid mid-layer for maximum heat transfer protection.
- Aramid fiber inner liner for additional heat-resistance performance, moisture-wicking and durability.
- Shoulder construction features additional padded panels for extra cushioning under HANS device and belts.
- Anatomical arm, leg and torso paneling patterned for optimum driving position fit.
- Lumber and back Aramid fiber stretch panels for unrestricted movement and breathability.
- Alpinestars' fully floating arm construction with stretchable knit fabric provides freedom of movement.
- Internal flat seams reduce pressure points in the suit for a more comfortable driving experience.
- Close-fitting design and adjustable collar and belted waist for precise fit.
- Comes in range of aggressive new colorways and design detailing.
- Alpinestars' shoulder epaulette construction to facilitate effective extraction of driver in event of a crash.
- Ribbed, stretchable wrist and foot cuffs (boot cut version features hemmed foot cuff finish).

SUPER KMX-1 SUIT

KARTRACING / SIZE: 40 - 60

- Certified to the new CIK FIA level 2 homologation standards, the SUPER K-MX 1 Suit incorporates a newly developed abrasion-resistant Cordura® main shell and 3D lining for superb ventilation.
- With a fully floating arm construction, an innovative extensive rear stretch panel which extend to the hips and a reinforced panel on the right arm specially developed for karting, the K-MX 1 is built for performance and protection.
- Complies with the CIK FIA Level2 new standard homologation
- Newly developed Cordura® main shell construction that is lightweight, highly breathable, abrasion resistant, durable and comfortable.
- Fully floating arm construction for minimal material resistance while driving and maneuverability around shoulders and upper arms.
- Newly, developed lumbar stretch panel extend round the back and hip areas for improved stretch fit in driving position and easier in and out of cockpit.
- Comfortable and breathable, advanced poly-3D lining works in conjunction with Cordura® shell for exceptional levels of ventilation and cooling comfort.
- Tech mesh inserts on crotch and under arm areas for high levels of airflow.
- Exclusive shoulder epaulette construction derived from Alpinestars Formula 1 race suits.
- Right elbow is reinforced with foam padding for resistance to abrasion and heat from the kart engine.
- Removable perforated poly-foam side torso padding for improved comfort and fit.
- Micro-fiber elastic foot loops secure suit in position without interfering with the foot pedals.
- Knitted wrist and ankle cuffs for snug and soft fit.
- Low profile collar for added convenience and comfort.
- Premium YKK zippers with Alpinestars zipper pullers, plus double slider for versatile and customizable fit.
- Embroidered logo and detailing.

TECH 1-ZX GLOVE

AUTORACING / SIZE: S-2XL

- Complying fully with FIA homologation standards, the premium auto racing glove Tech 1-ZX incorporates a range of groundbreaking material and construction innovations resulting in a significant reduction in weight as well as improved levels of mobility, grip sensitivity and cockpit comfort.
- Complies with FIA 8856-2000 homologation standard
- Complies with SFI (SFI: 3.3) homologation standard
- Innovative flame-resistant aradamic fiber main construction with a bonded aradamic inner lining to ensure optimal temperature control for maximum comfort and feel.
- Combination of innovative material construction methods result in a significant reduction in glove weight as well as an extensively reduced material design.
- Newly developed latex sprayed interior grip zone improves comfort and combines with outer grip zones for superb control and feel on the cockpit's controls.
- New ergonomically designed grip technology on palm and fingers with strategically positioned silicon surface patterning for improved flexibility and control.
- Ergonomic chassis design and pre-curved fingers for improved performance fit to reduce fatigue while offering a secure and snug fit around the wrist area.
- Alpinestars' cuff opening design with 180° elasticated wrist for easy entry and secure fit.
- External seams provide superior comfort and prevent any excessive pressure points forming on the hands while driving.

- Multi-layer main body construction for ultimate performance.
- Soft, advanced, poly lining for comfort.
- Dual density laminated padding, incorporating 3mm high density padding against the body for improved comfort, laminated with 4mm impact absorption EVA foam for effective impact protection and reduced vibration.
- Fiber-glass core for impact energy dispersion.
- External 500D advanced poly fabric for

improved abrasion resistance maintenance.

- Slim and light impact dispersion shield for excellent shock dissipation and durability.
- Fully adjustable, elasticated, front strap with snap closure for secure support and comfortable personalized fit.
- Adjustable shoulder straps formed with soft and breathable 3D mesh.
- Additional Velcro rear adjustment helps refine size adjustment.
- Perforated rear padding offers extra support and comfort.

SUPERMONO SHOE

AUTO RACING / PRODUCED SIZES: 5-13 US (EXCLUD. 5.5, 6.5, 11.5, 12.5) - CORRESPONDING TO: 37-47 EUR (EXCLUD. 37.5, 38.5, 45, 46)

- Following years of development and testing in Formula 1 Alpinestars is, once again, pioneering the very latest word in driving performance and technology.
- Featuring Alpinestars' patented one-piece kangaroo leather design construction for structural strength, an innovative new strap closure system and constructed using premium materials, the FIA homologated Supermono is extremely lightweight and ergonomic.
- Featuring strategically perforated zones and heat-resistant aramidic fiber lining. Every detail on the Supermono has been designed to excel under the toughest racing conditions imaginable and give drivers the ultimate in performance fit and feel.
- Complies with FIA (FIA: 8856-2000) and SFI (SFI: 3.3) homologation standards
- Main upper chassis constructed from supple, lightweight kangaroo leather for exceptional levels of comfort and durability.
- Lightweight micro-porous padding around the heel and insole enhance comfort while driving.
- All graphic elements are printed for improved weight-saving.
- Extensive perforation zones on lateral and medial sides, tongue and collar for improved ventilation and breathability and comfort.
- Tubular lining construction in para-aramidic fiber material for excellent levels of heat-resistant, weight-saving and reduced seams to improve all round comfort.
- Tongue constructed from CarbonX® elastic fabric to ensure ergonomic fit as well as providing additional flame-retardant properties.
- Alpinestars new closure design features an extensive Velcro® strap and elasticated gusset CarbonX® that closes across the instep allowing for an ergonomic fit and a patented one-piece design for a highly reduced material construction for greater comfort and performance in the cockpit.
- The Velcro® closure, a first for Alpinestars' auto footwear, offers a secure and personalized fit and incorporates perforations for cooling comfort. The lace-less design offers quick and easy in/out and weight-saving and safety.
- Collar padding constructed from Nitrile Rubber for comfort and weight-saving.
- FIA /Alpinestars label in the tongue made from fireproof
- Alpinestars foot counter features multi-compound construction and ergonomic Polypropylene heel counter plus integrated insole, which provides support, protection and stability plus integrated PU fireproof heel for comfort.
- Alpinestars exclusive lightweight rubber compound sole with special line textured grip and improved pedal feel in race conditions.

TECH 1-Z SHOE

AUTO RACING / PRODUCED SIZES: 5-13 US (EXCLUD. 5.5, 6.5, 11.5, 12.5) - CORRESPONDING TO: 37-47 EUR (EXCLUD. 37.5, 38.5, 45, 46)

- Incorporating advanced performance technologies and premium materials such as supple kangaroo leather, the extremely lightweight Tech 1-Z features streamlined foot-shaping, extensive perforation zones and Alpinestars' exclusive rubber compound sole for superb levels of comfort and maneuverability in the confines of the cockpit.
- Featuring a reduced material design, which contributes to weight saving and improved structural integrity, the Tech 1-Z incorporates a precise and technical speed lace closure system for optimized performance fit.
- Complies with FIA (FIA: 8856-2000) and SFI (SFI: 3.3) homologation standards
- Main upper constructed from superbly supple lightweight kangaroo leather for excellent comfort and durability.
- Lightweight micro-porous padding around the heel and foot bed enhances comfort.
- All graphic elements are printed for weight-saving and improved performance.
- Extended perforation zones on lateral and medial sides, tongue, collar, heel and toe for improved ventilation and breathability.
- New closure system features an aramidic speed top lacing system integrating Alpinestars' exclusively developed and proprietary wire closure system, which strategically envelopes the foot for optimal support and structure.
- Constructed using high-tensile fibers the wire system fits precisely and securely around the foot, guaranteeing tight closure with a lace lock system to ensure shoe remains in position.
- Para-aramidic fiber tubular lining construction for excellent heat-resistance, weight-saving and strength.
- Low-cut collar in heel to allow for greater Achilles heel comfort and improved range of movement.
- Collar padding constructed from Nitrile rubber for comfort and weight-saving.
- Tongue features perforated soft tongue padding for comfort and improved fit.
- FIA /Alpinestars label on the tongue made from fireproof PU film transfer.
- Alpinestars' one-piece toe and heel counter features multi-compound construction and ergonomic polypropylene heel counter plus integrated insole, which provides support, protection and stability plus integrated PU fireproof heel for comfort.
- New Alpinestars' exclusive thin rubber compound outsole, derived from the Formula 1 race program, providing unsurpassed levels of feel and grip.
